1x01. Pitfall enamorado.

12-11-10...

Se recibe una anomalía en NOAH.

Durante un rastreo masivo de datos

Según tareas de inspección rutinaria,

Los escáneres filtran un ruido.

El agente Nowbody bromea.

Hay cierta similitud entre esta perturbación y el sprite de Pitfall,

Rememorando los arcade clásicos de su infancia.

Una sonrisa acompaña a esta broma,

Como un bonus extra, según la casualidad

Quiere que el ruido sea descubierto

En el contexto sobre-explotado

De una reproducción de la Mona Lisa.

Algo queda escondido en secreto,

Por este desplazamiento

De la similitud a la somatitud.

Y el simpático Jefe Final, de momento,

Decide considerar este caso,

Nada más

Que una posible pareidolia.

1x02. Algo hace Pong en la memoria de Marilyn.

Feminidad es la madre de todo misterio.
Y una nueva anomalía aparece filtrada,
En alguna imagen pixelada de Marilyn
Reproducida de una copia de Warhol.
Mientras Nowbody insiste en considerar el fenómeno,
El agente Ivanhof desestima la opción,
Como siempre.
No cabe encontrar un sprite en un pixel.
Pues el pixel es la mínima medida para crear sprites.
Según argumenta ivanhof, es como si Nowbody
Considera posible un reverso del universo informativo.
Como sin en el plano físico los átomos
Pudieran estar hechos de moléculas.
Imposible.
Reconcentrarse en el consenso,
Se fija como objetivo.
Y el Jefe Final guarda silencio sobre este dilema absurdo.
Aunque ello convierta a la redundancia
En moneda de cambio.
Y se inserte una nueva
En la máquina de este juego.

1x03. Pre-re-profanación de Abu Simbel.

Una vez: coincidencia. Dos: Patrón. Tres veces: Programa.

Así funciona la lógica militar.

Y todas las luces rojas se encienden de repente,

Cuando el equipo de análisis liderado por Nowbody

Descubre una nueva anomalía con forma de sprite,

Entre información pixelada aleatoriamente.

Lo que no puede ser parece estar pasando.

Y un primer vistazo sugiere

todo tipo de meta-consideraciones.

Se sumerge más y más allá

De su propia existencia tecnológica,

Hasta hacer posible la propia creencia.

En otras palabras, el nuevo ruido

Aparentemente similar a la forma de un sprite,

Se revela en una reproducción de un antiguo papiro egipcio.

Lo que sinceramente podemos considerar,

Por decirlo con palabras del Jefe Final,

“La jodida evidencia definitiva que andamos buscando.”

Esta vez la anomalía no sólo muestra una forma bien clara,

Sino un obvio deseo incluso de apelación irónica

A forzar los límites del helado humor de quien la descubra,

Aunque sea en forma de una simple mala broma.

Quién, Cómo, Cuándo, Por qué,

Y todas las más básicas preguntas en su expresión más radical,

Gasolina aquí y ahora para potenciar la historia.

Pues el Jefe Final va a tomar alguna decisión,

Según el propio derecho que detenta a asumir su papel,

Por la ilusión del poder investido, al que por un casual,

Parece encontrarse en la cima

Como encarnación viviente del ojo de un destino

1x04. Entreartiscontaminamiento.

Aparece el artista. Sorprendentemente, el Jefe Final
Decide incorporar un nuevo miembro,
Al equipo de análisis liderado por Nowbody.
Lo que pueda aportar un pintor
Para contribuir a mejorar conclusiones
Surgidas de un altamente sofisticado equipo de análisis,
Todavía está por descubrirse.
Pero así acostumbra el Jefe Final a tomar decisiones,
Y ésta es sólo otra más.
Sólo la última de una larga y desafiante serie.
Como sea, mientras tanto,
Nuevos sprites se han descubierto en Las Meninas de Velázquez.
Y el equipo apenas tiene tiempo para seguir buscando.
Analizando antiguos datos según la rutina,
De su almacenamiento constantemente renovado.
La feminidad parece estar en juego, de nuevo.
Quizás cerrando la imagen precedente,
Con una de sus más bizarras representaciones.
También el pintor se autorretrata.
Pero por esconder el ser objeto de sí mismo
Se muestra sólo a través un espejo, que no es de su propiedad.
Y quizás esta explicación ya incluye
El papel total del nuevo miembro del equipo,
En el conjunto de la historia.
Tan cifrado como la intuición fuerza al hombre mono
A insistir en la diferencia entre Bien y Mal
Hasta entenderlas lógicamente como
Permutaciones correlativas de Ciencia y Arte.
Y en algún sitio de este camino,
Según se presiente bloqueado y cuadrado,
De repente hace un sprite de sí mismo.
Y entra un nivel nuevo, de su propio juego.

1x05. La Sistina de pantalla partida.

Desde la primera anomalía encontrada en la Mona Lisa pixelada,
El inventario sugiere que es tiempo de escanear.
Otra paradigmática obra maestra y... ¡Pengo!
La creación de Adán de Miguel Ángel
Revela algunos sprites cifrados
Más allá de toda absurda coincidencia,
De acuerdo con Nowbody.
Altamente influenciado por los últimos descubrimientos
Y quién sabe sin entrando quizás,
En alguna espiral descendente
De enfebrecida paranoia.
El equipo no puede admitir que haya una mente maestra
Detrás de este juego loco.
Capaz incluso de anticipar
La sorprendida reacción de los analistas,
Según se enfrentan al toque creativo
Entre los dedos de dios y adán.
Convertidos en un fantasma del que pacman escapa.
Sería algo demasiado grosero, para un esfuerzo tan sofisticado.
Pero así es. Y lo mismo sucede con este molesto pintor.
Que insiste en razones estéticas
Para explicar este tonto misterio
Fuera de toda lógica racional.
Y quizás después de todo,
Lo más molesto de cuanto sucede
Es la obligación de convenir la pertinencia
De mantener consecuentemente abierta la necesidad
De considerar el trasfondo de su florido remarcamiento.
Como algún camino transversal de otro posible análisis.
Aunque en lo más profundo de su ser interno, Nowbody lo maldiga.
Y de mala manera lo condene.

1x06. Collagpso.

Nowbody informa a su gente más cercana
Sobre la reunión en la oficina del Jefe Final.
Estuvo centrada en la necesidad
De reconsiderar su decisión
Sobre la incorporación del artista al equipo.
"No tiene sentido.
Sólo porque el objeto de estudio parezca recaer
Recurrentemente en piezas de arte,
No hay razón para reproducir esas imágenes,
¡Pintándolas!"
El Jefe Final escucha a Nowbody
Con inescrutable expresión en su rostro.
Como pixelándole lo que piensa. "Entiendo que hay siempre
algo útil en cualquier nueva variable, y ahora sabemos..."
"Ahora sabemos el extremo rango de rica desviación,
capaz de emerger desde una reflexión neutral,
para proyectarse en una creación destructiva, y viceversa..."
"Pero ya sabes, es obvio. Simplemente no encaja".
El jefe final permite que Nowbody se explique,
Tanto como necesite.
Y entonces le muestra el último trabajo del artista.
Una reproducción pintada de una imagen pixelada,
De una obra maestra de la pintura.
"Lo sé Nowbody..."
"Todo lo que dices tiene sentido."
"Y he estado sopesando seriamente
Dar marcha atrás a mi decisión..."
"Pero sabes... Por favor, mira esto."
El dedo del Jefe Final apunta a un pequeño cuadrado azul.
Un sencillito pixel de la composición pintada por el artista.
"Mira esto Nowbody"... "¿Lo ves?"
Nowbody centra su mirada en el pequeño punto,
Intentando descubrir alguna pista oculta,
Pero no ve nada.
Y el Jefe final declara sentenciosamente,
"Por un momento quise ver
el cielo entero dentro de él".

1x07. Miedo de un agujero negro y cuadrado.

Un agujero negro y cuadrado se traga robots dubitativos,
Mientras lo enmarcan desde un distante punto de vista,
Según caen hacia la singularidad.
Como dibujando en un sprite, la división entre universos.
Es una vieja imagen para asustar a niños mecánicos.
Que no quieren desenchufarse cuando llega la noche.
La Red vela por todos ellos.
Pero esto es algo que sólo se aprende,
A través de una experiencia mensual de salvación.
Y este programa es suplido invariablemente,
Una vez al día por noticias.
Sobre un recurrente terrorismo de Big Bang.
El ritmo no debe ser forzado.

La mente de Nowbody ha sido forzada.
Su lógica violada por las razones del arte.
Su orden físico cruzado e interrumpido,
Y manchado por cubos de pintura acrílica.
NOAH vela por todos nosotros,
Para que podamos dormir sobre un sentimiento de seguridad.
Nowbody se siente desenchufado.
Su confianza en el Jefe Final rota,
Por su falta de sensibilidad hacia cualquier aproximación estándar.
¿Se ha vuelto loco? ¿Nos está probando?
¿Es un test doméstico?
¿Nos está domesticando?
¿No es nada de esto y estoy equivocado,
Y no puedo entender por qué?
¿Tengo un problema?
¿Y el artista? ¿Es un topo de tipo mole-cu-lar?
¿Está en el equipo para sabotearnos con su sola presencia?
¿Es la palabra un arma disruptiva,
Suficiente para destruir la integridad,
Por la fuerza de la propia opinión?
Se suceden sentimientos virales.
Cuando la falta de necesidad simulada
Se convierte en un tema central.

Tragándose robots dubitativos.
Como un agujero negro y cuadrado.
Pintado en la mente de niños mecánicos.
Sean capaces de desenchufarse a sí mismos.
Para descansar en paz.
hasta que vengan las piezas del mañana.
Con nuevos circuitos del mismo viejo mundo de
siempre.
Donde el Jefe final, repentinamente,
Piensa en secreto que el ritmo,
Deberá ser forzado.

1x08. Imágenes auto-acuñadas se recuperan en el área de Tassili.

La secuencia de pulsos de la cinta,
Descifra ceros y unos, por una modulación
Simple y fiable, sin una tasa de reloj constante.
Durante el proceso de carga,
El borde emite un flash,
Con rayas amarillas y azules para los bloques de datos.
Diferentes mensajes descargan información,
Y detalles sobre el tipo de archivo.
Un mensaje de error de carga termina el evento,
Al desconectarse el filtro de audio.
La revelación se ha abortado.
Se encuentra un sprite en la reproducción pixelada de una pintura rupestre.
Nuestro artista redundantemente enigmático,
No se ensuciará las manos acrílico esta vez.
Para simular la técnica, usará sangre real.
De algún lugar antiguo: El del crimen literal.
Es todo demasiado bizarro. La conspiración parece demasiado vieja.
La sospecha se vuelve ridícula en este punto, casi una broma.
Todos espían a todos en la granja.
El Jefe Final parece disfrutar de la situación.
No es real. Es un bluff. Da miedo...
Hoy Nowbody intentó levantarse para ir a trabajar.
Pero su mente se interrumpió, como la carga de algún juego de Spectrum.
Así que se tira a la cama otra vez.
El filtro de audio recibe el sonido de un gatillo. Un disparo,
Pero en esta ocasión, la debilidad fue una ventaja.

Nowbody huye rápidamente.
Una secuencia de pulsos en su corazón.
Su cerebro descifra ceros y unos por una modulación,
Simple y fiable sin una tasa de reloj constante.
Durante el proceso de huida, Su vista percibe flashes
Con rayas amarillas y azules para los bloques de datos.
Diferentes mensajes descargan información,
Y detalles sobre el peligro.
Que ahora sabe real, y se siente mejor.
La revelación ha tenido lugar. No más cargas simuladas
Cuando el juego tiene lugar en la tierra de Dios.
Por favor Nowbody, corre en la dirección correcta.
Pues no otro scroll que el de izquierda a derecha
Podría satisfacer el capricho de los Nephilim.
Los acuñadores de moneda,
De algún olvidado Jefe Inicial.

1x09. Una opinión regular conlleva una pregunta circular.

Escondido, Nobody intenta unir los puntos.

Componer la figura.

El Jefe Final aparece vinculado invariablemente al artista.

Y el artista está vinculado a un gran signo de interrogación.

Los sprites son pistas,

Por la suerte de falta expresada en la baja fidelidad,

A pesar de que el HD parece ser el paradigma dominante.

Porque cuando no puedes contar todos los granos de arena,

Los píxeles son la forma de hacer transitable

El desierto del significado.

Así que el arte pixelado, es el camino

Para cruzar el desierto a la luz de una gran pregunta.

El artista lo reproduce todo.

Así es como traza el mapa surgido de su vinculación con el Poder.

¿Y cómo coexiste el artista con la pregunta?

Dispersa su efecto sobre la Historia.

Fertiliza el tiempo conforme se deshace de él.

Es la puerta siempre abierta,

Para evitar la tendencia del Presente

A disfrazarse de campo de juego de dioses y héroes,

En el tópico cotidiano.

Que es truco del Poder actual para perpetuarse,

Por un escenario tecnológico apantallado

Y altamente detallado.

Así que el artista debe ser el necesario obstáculo

Para evitar convertirme en mi propio enemigo.

Y si así es mi beneficiosa némesis,

Es mi misión destruirle

Para serle agradecido.

El artista es mi ruina, es mi deber eliminarlo,

El artista es mi bendición.

La destrucción es mi deber, incluso con más ahínco,

Para enviar a los dioses la única respuesta real

Que pueden entender, para encontrar,

Que los mensajes cifrados en sprites han sido recogidos.

Porque ahora no hay dilema al vestirse el momento,

De un veredicto de segura culpabilidad. Mientras un nuevo sprite

Aparece en un Pantocrátor pixelado. El Jefe Final será satisfecho.

Totalmente, de la única manera en que podría serlo.

Como siempre hemos sabido. que debía ser:

Por medio de asesinato.

1x10. Formas caníbales para huir de Laberintófago.

El Jefe Final telefonea a una Alta AutoriFidelidad. Nowbody elige arma.
El artista está más cerca del centro. Retira capas innecesarias,
Pues la ley nunca requirió de detalles añadidos
Para legitimar el escribirse en letra mayúsculas.
Capital es el castigo ensombreciendo de movimientos
Convergentes en una pregunta con forma de sprite,
Que da a los pasos de Nowbody una luz
Como de Ángel Vengador.
El artista pinta un monstruo que devora a su propio hijo.
El Jefe final siente una alineación paterna,
De sentimiento jupiterino por todos los que tiene a su cargo.
Las estrellas describen la historia sólo a sus iniciados.
Nowbody espía al artista, presto para dispararle.
El artista contesta una llamada, mientras apuntan a su cabeza.
El artista dice que “todo está bajo control. El Jefe Final será derrotado.”
Es un traidor.
El dedo va a apretar el gatillo,
Pues la conversación demuestra que el artista es un topo.
El artista dice que Nowbody lo está haciendo bien.
Esa variable de la ecuación está perfectamente calculada.
Así que parece dispuesto a sacrificarse en cuanto haga falta.
La información encriptada en los sprites,
Sera preservada al mostrar sus cuadros como un velo de histórico engaño.
Nowbody sorprendido, deja de apuntar a su cabeza.
Sólo para romper la regla inesperada, que él mismo incorpora.
Y corre a comprobar la situación del Jefe Final.
El artista mira por la ventana.
El Jefe final es requerido por la Alta AutoriFidelidad,
Para elevarle al siguiente nivel.
Una carcajada mastica el disfrute
Cuando todo el mundo llena el plato,
En un festín por un cuento esparcido,
Como un trueno en la cúpula celeste de la audiencia,
Cuando la Guerra Total señale sus bajas
Fruto de un malentendido guerrero, de lo casual a lo causal,
Según enloquece ante el olor de la sangre humana.
Nunca más deseo azaroso, sino herramienta plena del destino.
Dentro de laberintos sin otra salida
que una solución pixelada, hasta que cada huida,
Se convierta en una pieza de un puzzle llamado a su trono.

1x11. La guerra personal tiene su propia promesa de nuevo linaje.

Nowbody ha sido capturado y atado. El Jefe Final le habla.

"No me malinterpretes, la Guerra no tiene nada de personal."

"No es especialmente por ti.

Incluso cuando tu carne despellejada huele a quemado,
por la subsiguiente deflagración,
generada por un misil Patriot."

"No te pongas susceptible.

Sólo porque el metal y el fuego destruyen tu cuerpo entero."

"Porque las armas nunca fueron concebidas,
y construidas especialmente para usarlas contra ti."

"La Guerra nunca fue personal,

Así que no me malinterpretes:

Nada personal es la Guerra, píllalo bien.

La Guerra sólo es un tipo de información negativa,

Y nada más personal."

"Y sólo puede afectarte como víctima colateral.

Tú no eres un hijo de la Guerra, sino como mucho, su sobrino.

Y NADA MÁS."

"Por favor entiende que no hay nada más en todo esto,
como encontrar sprites en píxeles:

Ser sólo sobrinos de esta Guerra es ser hijos de un nuevo tiempo."

"Un nuevo tiempo llegará.

Estarás tan cerca de un linaje perteneciente,

A un dios alejado de todas las cosas."

"Así que eres hijo de la nada, por un nuevo tiempo que trae,

La oportunidad de no ser más que una parte, cercana a apartarse de todo.

Pero entonces estate distante de un dios cercano."

"Sé sólo el sobrino de dios... para ser un hijo de los Nephilims."

De las sombras aparece un gigante, que parece estar al mando.
Es la primera vez que Nowbody ve al, así llamado,
Alta AutoriFidelidad.
Tiene el privilegio de confirmar lo que alrededor de NOAH,
Se mantiene como un vago mito.
La Alta AutoriFidelidad realmente existe.
Y parece... ¿Ser un gigante?

"Este es el nuevo trato que te ofrecemos Nowbody, ser parte de nuestra familia."

La cercanía del gigante permite a Nowbody, pulsar un botón de su cinturón,
Que enciende un anillo de fuego en su dedo,
Provocando el caos en la habitación,
Y Nowbody se libera.
Escapa sobre las propias palabras que deja atrás,
Desplazando su ubicuo nirvana hasta una mente más realista y guerrera.

"Discúlpeme Jefe final pero yo,
Si me extraen todo atisbo de vida de mi cuerpo, sin mi consentimiento,
Me resulta todavía algo personal."
"Al punto en que necesito defenderme...
Por favor, no me malinterprete esto,
Como habitado por mi propio espíritu."

1x12. Nuevos felices pretextos en reclamo de un único y valeroso mundo.

Una burbuja es la imagen emergente del triunfo de un pretexto.
El pretexto siempre pide otra razón,
Pero un linaje de razones ya empezaron de un pretexto,
Incapaz de acuñar suficiente valor para elevar una idea libre,
De anteponer el propio interés ante una perspectiva instrumental.
Se inserta una moneda para empezar el juego,
Y el juego pedirá al jugador más monedas,
Para alcanzar el aparente objetivo final.
El juego comienza y muestra dragones,
Lanzando burbujas para defenderse de los enemigos.
Encierran a sus enemigos en círculos
Como pretexto de mantener un papel
Que te pida más monedas,
El pretexto es tu enemigo
Y tú no encuentras otra forma de sostener la idea de juego,
Capturado en una burbuja como un sprite insertado en un pixel,
Ése es el único mundo que conoces.
Un mundo resulta de pretextos, edificadas en burbujas luminosas.
Mientras antiguos rascacielos colapsan pesadamente.
Pretexto es cualquier idea presta a pretextarse, en un mundo circular,
Como una moneda, para jugar al único juego que resulta de tal situación:
Una generación educada por Bubble Bobble, que ahora descansa
En el dormitorio de Van Gogh.
Sorda para siempre, de cualquier canción no emitida por sirenas,
Emitidas por coches de policía que se dirigen a tu vecindario,
A por gente que arrestar por pensar
Hasta el punto de romper la burbuja de pretextos.
Y con ello, entrar en su propio juego.
Pero en alguna habitación de motel,
Nowbody siente que una burbuja estalla en su mente
Para entender que hay tantos mundos posibles como juegos potenciales
Y el juego que decide empezar, es defender esta idea
Frente a cualquier otro pretexto en absoluto.

1x13. Pixelado pixel es el umbral, cuadrado de Plaza Infierno.

Al penetrar en NOAH para hacer varias verificaciones
Que le permitan obtener evidencias definitivas,
Now-body es considerado un breve error del sistema.
Su existencia describe un fallo transitorio auto corregido,
Y por consiguiente difícil de resolver.
La iniciativa particular supone una transición indeseada
Sucedida antes de que la señal fije su valor calculado.
En otras palabras, el pensamiento de Nowbody
Es un pulso eléctrico de corta duración
Que resulta de un fallo, o un error de diseño.
Obviamente, en un circuito lógico digital pobremente ideado,
Nowbody puede tener lugar a modo de condición racial.
Entonces el sujeto, pasa a ser Giltchman,
Un fallo menor que pronto será rectificado.

Todas estas consideraciones suponen una declaración fáctica,
De un error por parte del Jefe Final.
Recriminado por este fallo del sistema.
Instrucciones incorrectamente escritas,
Inválidos datos de entrada no detectados a tiempo,
Errores de comunicación pasados por alto,
Son solo algunos de los muchos errores detectados.
Y mientras Nowbody elude las patrullas de seguridad nocturna,
Y enciende las computadoras,
El Jefe Final es condenado a un Nuevo nivel de grandeza infectada por Hi-Fi.
El Jefe Final llena ahora casi la toda la pantalla,
Según espera la llegada de Gitchman
Al ritmo de su nueva propia rutina
Diseñada para destruir a Now-body.

El análisis inicia una nueva búsqueda,
Para pixelar reproducciones de arte previamente pixeladas,
Pues Now-body comprende a la luz de los últimos eventos,
Que saltar sobre el cuadrado es la llave.
Conceder al problema el derecho a existir
Es la clave para agotarlo por sobre-explotación.
No mostrar nunca rechazo alguno,
Sino acompañarlo hasta el final.
Pixelar imágenes previamente pixeladas.
Y entonces, acceder a una nueva puerta abierta.

**NADIE
DELANTE**

Un scroll vertical indetectable arrastra a Nowbody

Al territorio del Jefe Final.

"¡Giltchman!" grita, "demasiadas preguntas por parte de un hombre tan simple
Convierten su mente en un error."

"Como esos sprites que nunca quisiste encontrar,
debiste considerarlos nada más que una ilusión."

"Te dije que eran solo pareidolias. Como todo enigma
Deberías haberte concentrado en la simple sonrisa de la Mona Lisa."

"¿Piensas que eres capaz de desactivar el dispositivo
Sólo por tu derecho a opinar?"

"¿Quién eres tú para ignorar un truco
que ha funcionado durante tantos siglos?"

"Sólo un glitch, tú eres Glitchman". El Jefe final dispara.

Now-body esquiva el fuego, y estudia los movimientos del Jefe final

Mientras la computadora continua trazando pixeles,

En imágenes posiblemente ya pixeladas.

La pantalla se llena de fuego.

La computadora detecta una pintura de Dalí.

Reproduce una ambigua imagen.

Desde una perspectiva muestra a su amada Gala.

Desde otro puedes ver bloques que forman la cara del Presidente Lincoln.

Estos bloques son como píxeles,

Ahora repixelados por la computadora

Para mostrar la pista definitiva.

El Jefe Final y Gitchman se disparan.

Buenos tiradores: ambos caen al suelo.

El Jefe Final aparece abatido.

Nowbody siente perder la vida, y mientras sus ojos se cierran,

Puede ver en este retrato repixelado del Poder, un super-sprite:

Una gran cara sangrienta combatiendo su propio descenso

Al nivel final del Doom

Mientras por ahora, la realidad se desvanece oscuramente,

Pero quizás no sea tan afortunado como para descansar en paz,

Y por siempre.
